DETAILED ACTION

Allowable Subject Matter

1. Claims 1, 3-6 and 8-9 are allowed.

2. The following is an examiner's statement of reasons for allowance:

The closest references the Examiner was able to locate were:

a) Montross US 1,059,747 – The reference at least fails to teach a fitting insert through a separate penetration in the base clamp.

b) Wheatly US 5,301,913 – The reference teaches a threaded fitting insert through a separate penetration but fails to teach threaded top and base clamps. Furthermore, it would not be obvious to modify the reference, or apply it in an obviousness rejection to other prior art clamps because the reference teaches the fitting insert is threaded and thus does not require threading of the base clamp, as required by the claimed invention.

Examiner notes the claim has the fitting insert accepting and securing the bolt. Examiner reads this, as is clearly shown in figure 1, as the fitting completely surrounding the bolt.

No motivation could be found in order to modify the prior art in order to teach the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
